Abstract of JP 7089803 (A)

PURPOSE To provide an odorless ant-preventing agent containing an active ingredient of the ant-preventing agent, a solvent, and a surfactant or an antiseptic agent, the solvent being an alkyl-substituted naphthalene compound.

CONSTITUTION An ant-preventing agent contains an active ingredient for the ant-preventing agent, a solvent, and a surfactant or an antiseptic agent, the solvent being an alkyl-substituted naphthalene compound of the formula (R₁, R₂ are H, 1-2C alkyl; R₃ is 1-3C alkyl), such as dimethylcrotylnaphthalene or monomethylmonopropynaphthalene. The active ingredient for the ant-preventing agent is an organic phosphorous ant-preventing agent, a pyrethroid ant-preventing agent, a carbamate ant-preventing agent, or a chitinase ant-preventing agent.

Especially, the active ingredient preferably comprises one or more selected from the group of chlorpyrifos, phoxin, pyridaphenthion, tetrachlorovinphos, fenitrothion, propentamphos, allethrin, permethrin, fenvalerate, SAIPASUMERIN, propoxur, betaee, carbaryl and IMIDAKUOPURIDO.
